SUMMARY

Fresher QA/Tester with internship experience in E-commerce, Banking, and CRM projects. Skilled in manual testing, SQL validation, API (Postman), and performance testing (JMeter). Seeking to contribute to a QA team and grow into a Full-stack QA Engineer, covering manual, automation, API, and performance testing to ensure software quality.

WORK EXPERIENCE

Intern Tester, CRM Project Sep 2024 - Nov 2024

- Designed test scenarios for Customer, Supplier, and User modules.
- Executed manual test cases for UI, CRUD, search, and import/export features.
- Performed API testing with Postman and load testing with JMeter.
- Collaborated with QA team to review test cases and tracked bugs in Jira.

Intern Tester, Banking Project (SeABank – SeAPartner System) July 2024 - Sep 2024

- Designed & executed test cases for Agent, Branch, and Business Unit modules.
- Tested CRUD operations, validation rules, and search functionalities.
- Verified backend data with SQL queries.
- Reported bugs via Jira & Excel

Personal Project, E-commerce Project (Books Online Website) July 2024 - Sep 2024

- Analyzed requirements, designed test checklists and test cases.
- Tested admin page functionalities (CRUD, search, validation).
- Used SQL queries for backend data verification.
- Logged and tracked bugs using Excel & Jira.

EDUCATION

Bachelor of Software Engineering 2020- 2025
Saigon University

ADDITIONAL INFORMATION

Technical Skills:

- **Testing:** Manual Testing, Test Design (Test Case & Scenario), Bug Reporting, Basic ISTQB Foundation knowledge
- **Tools:** Jira, Postman (API Testing), JMeter (Performance), Excel
- **Database:** MySQL, MS SQL (Basic SQL queries)
- **Programming:** Basic knowlegde of C#, JavaScript, HTML/CSS
- **Frameworks:** Selenium (basic automation), NUnit

Language:

- English (TOEIC 625 – Listening & Reading)

Soft Skills:

- Teamwork, Critical Thinking, Attention to Detail, Communication
